SUMMARY

Web developer with 10 years of experience designing, building and maintaining responsive, accessible websites and web applications for e-commerce brands, publishers, fintech and public health. I work across the stack in React, Next.js, TypeScript, Node.js and PHP; integrate REST and GraphQL APIs, databases, CMS platforms and third-party services; and test across browsers and devices with Jest, Cypress and BrowserStack. A BS in Computer Science and Design helps me turn designers' specs into fast, polished interfaces. SEO and UX improvements I led at CeteraMarketing were credited with a 50% increase in profits.

SKILLS

Front end	HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Next.js, Vue.js, Tailwind CSS, Sass, Bootstrap, jQuery, Handlebars
UI and accessibility	Responsive design, cross-browser compatibility, reusable components, WCAG 2.x, ARIA
Back end and data	Node.js, PHP, REST APIs, GraphQL, PostgreSQL, MySQL, MongoDB, Prisma
Testing and QA	Jest, React Testing Library, Cypress, Selenium, BrowserStack, cross-device testing
Cloud and DevOps	AWS, Azure, Vercel, Docker, GitHub Actions, GitLab CI, Jenkins, Git
CMS and e-commerce	WordPress plugins and widgets, Shopify and Liquid, HubSpot CMS, Headless CMS, Magento, Adobe Experience Manager, Drupal
Performance and SEO	Technical SEO, caching and database optimization, Google Analytics 4, Google Tag Manager, Google Search Console
Design and workflow	Figma, Photoshop, Illustrator, Sketch, InVision, Agile and Scrum, code reviews, technical documentation

EXPERIENCE

Zoho Developer and Tech Lead · PINKYS Iron Doors, Vernon, CA — Oct 2025 – Present

- Lead a team of three developers through Scrum, tracked in Zoho Sprints, with code reviews to hold quality and deadlines.
- Build Zoho custom functions and integrations across Inventory, CRM, Flow and Creator to automate sales and operations.
- Built an inventory system that tracks every product from order through delivery.
- Shipped process changes and digital marketing features that turn more leads into direct sales.

Full Stack Developer · CeteraMarketing, North Hollywood, CA — Oct 2023 – Oct 2025

- Built custom e-commerce sites for clients in Next.js and React, increasing client engagement.
- Led SEO and UX improvements credited with a 50% increase in profits.
- Integrated third-party APIs and services to add features and smooth the user experience.
- Turned design specs into responsive front ends that work across browsers and devices, and refactored outdated codebases to modern, scalable standards.

Full Stack Developer · TGR Foundation, Irvine, CA — Apr 2023 – Sep 2024

- Led development of a custom e-commerce platform that raised user engagement and conversion rates.
- Built product pages, interactive content modules with back-end editing, and custom CMS plugins with PHP, JavaScript, React, Node.js, AWS and WordPress.
- Led third-party API integrations and moved legacy systems onto modern frameworks.
- Ran two-week sprints and code reviews to hold code quality and deadlines.

Full Stack Developer · BlueVine, San Francisco, CA — Feb 2022 – Apr 2023

- Migrated the website from WordPress to a headless CMS built with React.
- Designed REST APIs with back-end developers and built responsive interfaces on top of them.
- Refactored legacy code and streamlined deployment for faster, more reliable releases.

Web Developer · NYC Health + Hospitals, New York, NY — Apr 2020 – Jan 2022

- Built a geolocation web app in React, Node.js, PHP and AWS that mapped COVID-19 hotspots from patient data.
- Kept patient data secure and HIPAA-compliant throughout collection and handling.
- Redesigned the website and updated its CSS stack for better responsiveness across screen sizes.
- Added PHP features and custom CMS plugins and widgets for easier content updates.

Web Developer · CoreSight Research, New York, NY — Feb 2018 – Apr 2020

- Grew site traffic through technical SEO and targeted content.
- Maintained the PHP back end and sped up the site with caching and database optimization.
- Built custom-styled templates in Adobe Experience Manager and Liquid updates for affiliate Shopify stores.
- Strengthened site security with encryption.

Web Developer · American Kennel Club — Apr 2016 – Feb 2018

- Troubleshot and fixed site defects and shipped changes with PHP, Handlebars, Vue.js and Git.
- Designed front-end mockups used to win new clients.
- Fixed 404 errors with regex and CMS redirects to improve SEO.
- Added CMS plugins and shortcodes so editors could update content themselves.
